**Subject:** items for next TCT meeting

Greetings, Kristine and Sean. I'm looking forward to participating in our next TCT meeting. I don't know if you have a full agenda already, but in case there's time for additional items, I would like to discuss the revised Section 2. I like the revisions that you made but have some questions about the changes. We could alternatively discuss some of these topics offline if you think that would be better.

Some specific topics related to Section 2 that I'd like to discuss include:

- *Summary of HQ comments:* I would find this interesting to get a sense of where HQ is coming from, which may indicate what to expect from them in the future.
- *RAOs:* I like the new RAOs but have a few questions.
- *PRGs:* I have some questions related to the derivation of the PRGs. Perhaps this is a topic more suited to an offline conversation because I know that DEQ has already spent a lot of time on understanding your PRGs, and I don't want to bog the group down.
- *Process options:* I don't think I have a problem with the changes in representative process options between the two versions, but I'd be interested in hearing the rationale behind the changes.

Best,

Gail
